Gems

- Creating a Google Gemini Gem

Creating a Google Gemini Gem

Preamble

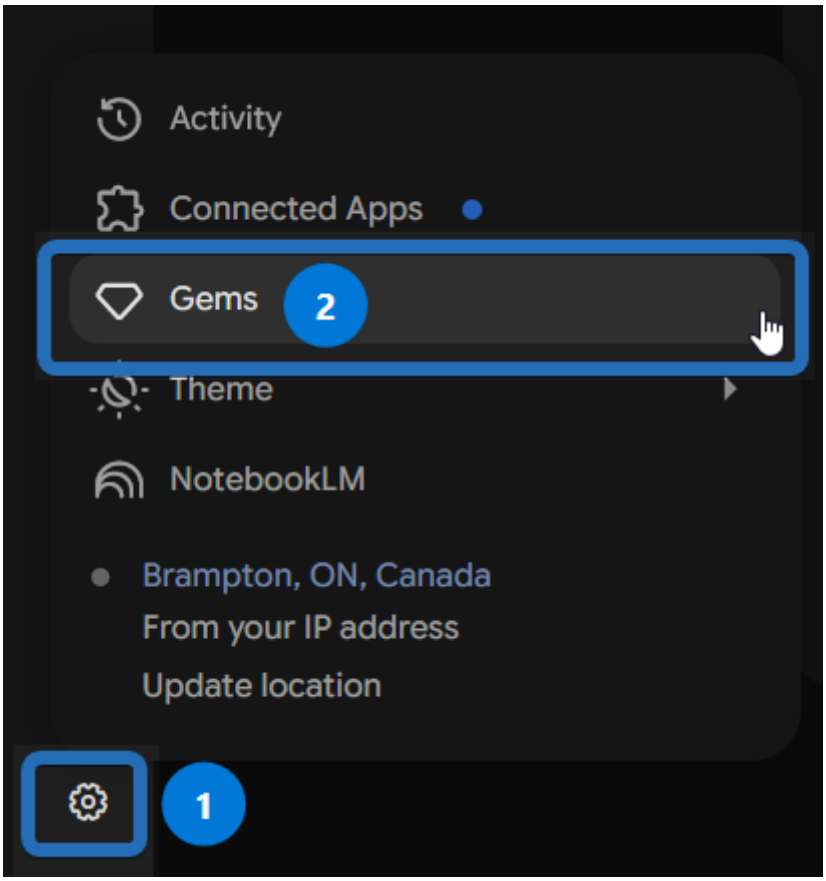

Google Gemini Gems are useful to define repeatable tasks, and to set rules for Gemini to stick to that are reusable for multiple chats/conversations.

Creation

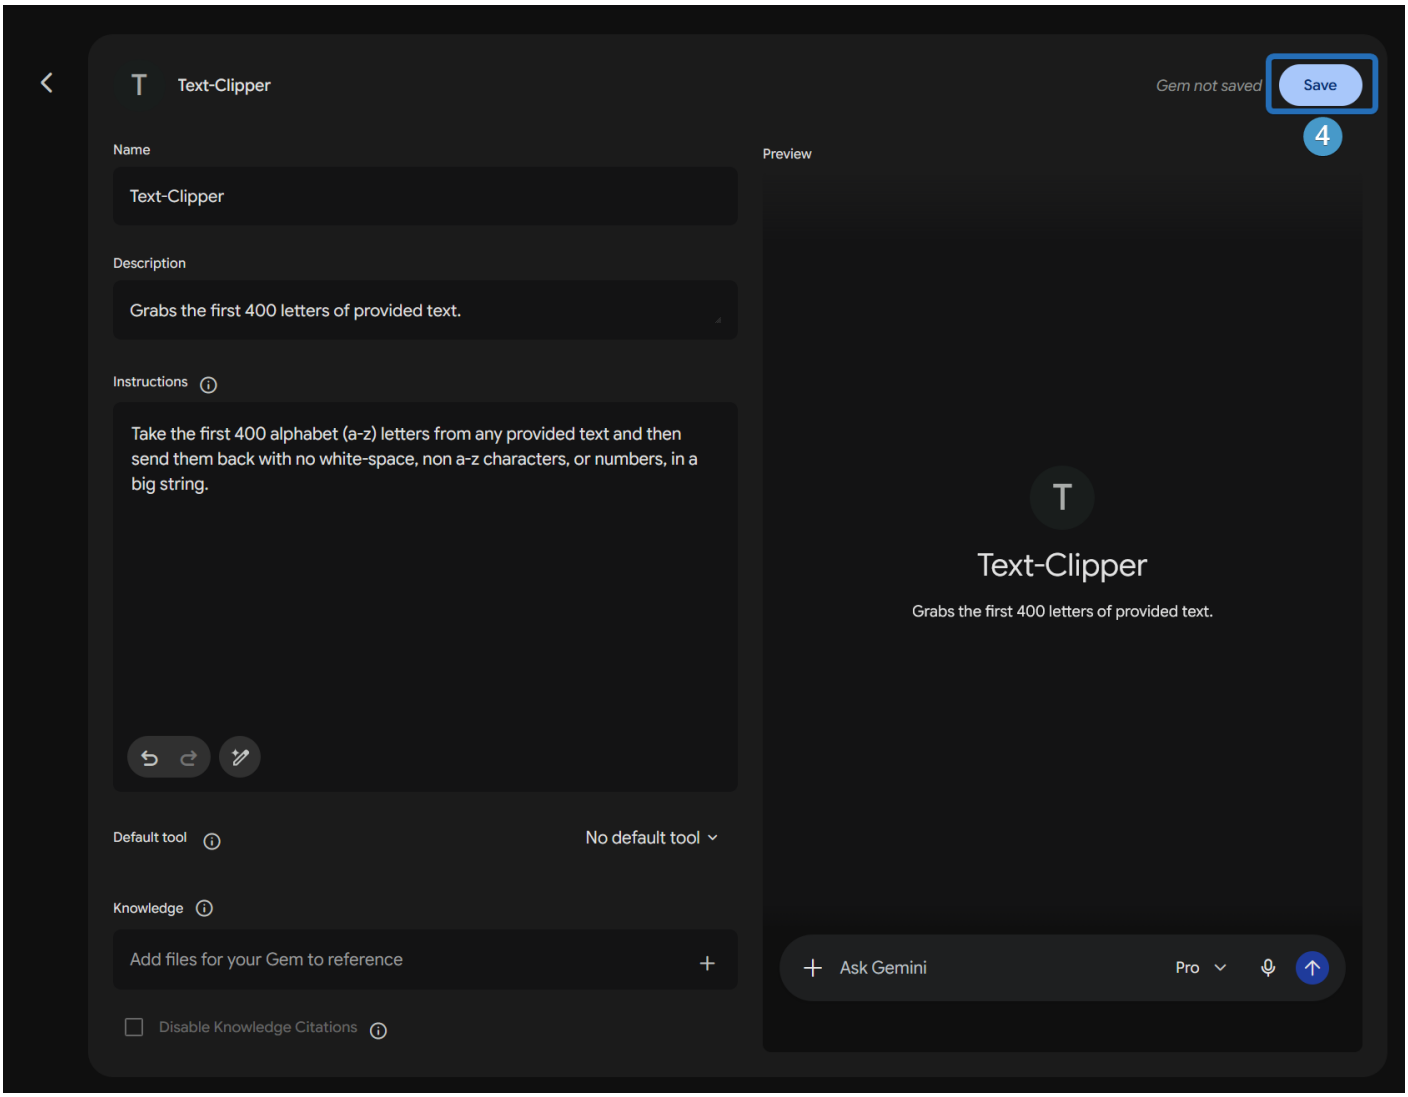

1. To create a Gem, start by clicking on the Cog/Gear **(1)** icon in the bottom right corner of the Gemini App, and then click on the `Gems` option **(2)**:

2. To the right of the `My Gems` heading, click on the `New Gem` button **(3)**:

3. Now you can create your Gem, and provide the instructions that Gemini follow for any interactions with/using this Gem, and save it by clicking the `Save` button **(4)**:

4. You now can start chatting with this Gem via the `Start Chat` button **(5)**, or share it with other employees:
